Experience

Design Intern Engram
July 2020 - Jan 2021 | 7 months

My first industry experience in design came at a fast-paced startup, working within a young, high-calibre team of three and gaining early exposure to practical design thinking.

Industrial Design Intern Analogy Design
Dec 2021 - Feb 2022 | 3 months

While still in college, joining Analogy Design - one of India's leading industrial design studios gave me early access to highly experienced designers and a fast-paced, high-standards design culture. I immediately began contributing to client projects, gaining a significant head start in real-world industrial design practice.

Industrial Designer Analogy Design
March 2022 - June 2023 | 1 year 4 months

Following a rapid 3-month internship progression, I began my first full-time role at Analogy as an Industrial Designer, handling fast-moving projects and tight client timelines for major Indian consumer electronics and audio giants. The experience offered deep exposure to the realities of design execution and strengthened all my foundational industrial design skills.

Industrial Designer Exponent Energy
July 2023 - Present | 3 years 3 months

I currently work as an Industrial Designer at Exponent Energy, a deep-tech hardware startup building 15-minute rapid EV charging technology, where fast execution and high engineering rigor have pushed my design capabilities to the next level. My contributions to the P4 Charger and upcoming charging systems - including a bus-charging station—have been integral to delivering one of the world's fastest EV charging technologies now in production.

Education

Industrial & Product Design Ramaiah University of Applied Sciences
2018-2022

Design Thinking - User-Centered Design - Business Value of Design
Sketching, Prototyping, CAD, Ergonomics, Manufacturing

Tools

Figma	2D Rendering	Keyshot	Foam Modelling
